

Withington Contact Centre?

We provide a safe place for you to spend time with your family. We know this can be a change from what you're used to. Our volunteers are there to help you if you need. If you have any problems you can ask us and we will do our best to help.

Before you come to the contact centre for the first time you can come and have a look round. You can ask:

- How long you'll come for and which days
- What toys and games we have
- If you can bring toys and games from home
- What our rules we have
- What to do if you have a problem whilst you are there

When you come for the first time you might be a bit nervous. We'll tick your name off on our register and then someone will take you up the stairs to our play room. Most of the time there will be other children there playing with their families too. They will be all different ages from babies to teenagers.

Our volunteers are here to help you and your parents. We wear name badges so you can spot us. We hope you enjoy your time at the contact centre.
